Ammonium Phosphate Dibasic

SECTION 1 : Identification of the substance/mixture and of the supplier

Product name : Ammonium Phosphate Dibasic

Manufacturer/Supplier Trade name:

Manufacturer/Supplier Article number: S25175A

Recommended uses of the product and uses restrictions on use:

Manufacturer Details:

AquaPhoenix Scientific
9 Barnhart Drive, Hanover, PA 17331

Supplier Details:

Fisher Science Education
15 Jet View Drive, Rochester, NY 14624

Emergency telephone number:

Fisher Science Education Emergency Telephone No.: 800-535-5053

SECTION 2 : Hazards identification

Classification of the substance or mixture:

Irritant

Eye irritation, category 2A

Specific target organ toxicity following single exposure, category 3

Skin irritation, category 2

Eye Irrit. 2

Skin corrosion/irritation - Skin Irritation 2

STOT Single Exposure 3

Signal word :Warning

Hazard statements:

Causes serious eye irritation

Causes skin irritation

May cause respiratory irritation

Precautionary statements:

If medical advice is needed, have product container or label at hand

Keep out of reach of children

Read label before use

Wash skin thoroughly after handling

Wear protective gloves/protective clothing/eye protection/face protection

Avoid breathing dust/fume/gas/mist/vapours/spray

Use only outdoors or in a well-ventilated area

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do.

Continue rinsing

If eye irritation persists get medical advice/attention

IF ON SKIN: Wash with soap and water

Specific treatment (see supplemental first aid instructions on this label)

If skin irritation occurs: Get medical advice/attention

Take off contaminated clothing and wash before reuse

Safety Data Sheet

according to 29CFR1910/1200 and GHS Rev. 3

Effective date : 10.24.2014

Page 2 of 7

Ammonium Phosphate Dibasic

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
Call a POISON CENTER or doctor/physician if you feel unwell
Store locked up
Store in a well ventilated place. Keep container tightly closed
Dispose of contents and container as instructed in Section 13

Other Non-GHS Classification:

WHMIS NFPA/HMIS

NFPA SCALE (0-4)

Health	2
Flammability	0
Physical Hazard	1
Personal Protection	X

HMIS RATINGS (0-4)

SECTION 3 : Composition/information on ingredients

Ingredients:

CAS 7783-28-0	Ammonium Phosphate Dibasic	>99 %
Percentages are by weight		

SECTION 4 : First aid measures

Description of first aid measures

After inhalation: Loosen clothing as necessary and position individual in a comfortable position. Move exposed to fresh air. Give artificial respiration if necessary. If breathing is difficult give oxygen. Get medical assistance if cough or other symptoms appear.

After skin contact: Rinse/flush exposed skin gently using soap and water for 15-20 minutes. Seek medical advice if discomfort or irritation persists.

After eye contact: Protect unexposed eye. Rinse/flush exposed eye(s) gently using water for 15-20 minutes. Remove contact lens(es) if able to do so during rinsing. Seek medical attention if irritation persists or if concerned.

After swallowing: Rinse mouth thoroughly. Do not induce vomiting. Have exposed individual drink sips of water. Seek medical attention if irritation, discomfort or vomiting persists. Never give anything by mouth to an unconscious person.

Most important symptoms and effects, both acute and delayed:

Nausea, Headache, Shortness of breath. eye contact with concentrated alkali causes conjunctival edema and corneal destruction. Alkalies penetrate skin slowly. Extent of damage therefore depends on duration of contact. Irritation- all routes of exposure. May be harmful if absorbed through skin;

Indication of any immediate medical attention and special treatment needed:

If seeking medical attention, provide SDS document to physician. Physician should treat symptomatically.

Safety Data Sheet

according to 29CFR1910/1200 and GHS Rev. 3

Effective date : 10.24.2014

Ammonium Phosphate Dibasic

SECTION 5 : Firefighting measures

Extinguishing media

Suitable extinguishing agents: Use water spray, dry chemical, or carbon dioxide to extinguish surrounding fire as this material is non-combustible

For safety reasons unsuitable extinguishing agents: Water - runoff must be collected

Special hazards arising from the substance or mixture:

Thermal decomposition can lead to release of irritating gases and vapors. Nitrogen oxides (NO_x), Oxides of phosphorus, Ammonia

Advice for firefighters:

Protective equipment: Use NIOSH-approved respiratory protection/breathing apparatus.

Additional information (precautions): Move product containers away from fire or keep cool with water spray as a protective measure, where feasible. Use spark-proof tools and explosion-proof equipment. Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. Avoid inhaling gases, fumes, dust, mist, vapor, and aerosols. Avoid contact with skin, eyes, and clothing. Non-combustible material

SECTION 6 : Accidental release measures

Personal precautions, protective equipment and emergency procedures:

Wear protective equipment. Use spark-proof tools and explosion-proof equipment. Ensure that air-handling systems are operational. Ensure adequate ventilation.

Environmental precautions:

Prevent from reaching drains, sewer or waterway. Collect contaminated soil for characterization per Section 13. Should not be released into environment. This product is a concentrated source of nutrients that can harm aquatic life; collect for reuse as fertilizer if possible unless contaminated

Methods and material for containment and cleaning up:

Keep in suitable closed containers for disposal. Wear protective eyewear, gloves, and clothing. Refer to Section 8. Always obey local regulations. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air). Collect solids in powder form using vacuum with (HEPA filter). Evacuate personnel to safe areas.

Reference to other sections:

SECTION 7 : Handling and storage

Precautions for safe handling:

Minimize dust generation and accumulation. Follow good hygiene procedures when handling chemical materials. Refer to Section 8. Do not eat, drink, smoke, or use personal products when handling chemical substances. Avoid contact with eyes, skin, and clothing.

Conditions for safe storage, including any incompatibilities:

Store away from incompatible materials. Protect from freezing and physical damage. Keep away from food and beverages. Provide ventilation for containers. Avoid storage near extreme heat, ignition sources or open flame. Store in cool, dry conditions in well sealed containers. Store with like hazards

SECTION 8 : Exposure controls/personal protection

Safety Data Sheet

according to 29CFR1910/1200 and GHS Rev. 3

Effective date : 10.24.2014

Page 4 of 7

Ammonium Phosphate Dibasic

Control Parameters:	, , OSHA PEL TWA (Total Dust) 15 mg/m ³ (50 mppcf*) , , ACGIH TLV TWA (inhalable particles) 10 mg/m ³
Appropriate Engineering controls:	Emergency eye wash fountains and safety showers should be available in the immediate vicinity of use/handling. Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapor or dusts (total/respirable) below the applicable workplace exposure limits (Occupational Exposure Limits-OELs) indicated above. It is recommended that all dust control equipment such as local exhaust ventilation and material transport systems involved in handling of this product contain explosion relief vents or an explosion suppression system or an oxygen deficient environment. Ensure that dust-handling systems (such as exhaust ducts, dust collectors, vessels, and processing equipment) are designed in a manner to prevent the escape of dust into the work area (i.e., there is no leakage from the equipment). Use under a fume hood
Respiratory protection:	Not required under normal conditions of use. Where risk assessment shows air-purifying respirators are appropriate use a full-face particle respirator type N100 (US) or type P3 (EN 143) respirator cartridges as a backup to engineering controls. When necessary use NIOSH approved breathing equipment.
Protection of skin:	Select glove material impermeable and resistant to the substance. Select glove material based on rates of diffusion and degradation. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Use proper glove removal technique without touching outer surface. Avoid skin contact with used gloves. Wear protective clothing.
Eye protection:	Wear equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU). Safety glasses or goggles are appropriate eye protection.
General hygienic measures:	Perform routine housekeeping. Wash hands before breaks and at the end of work. Avoid contact with skin, eyes, and clothing. Before wearing wash contaminated clothing.

SECTION 9 : Physical and chemical properties

Appearance (physical state,color):	White solid	Explosion limit lower: Explosion limit upper:	Not determined Not determined
Odor:	Ammonia-like	Vapor pressure:	857.1 kPa at 20 °C (68 °F) (exhibits an ammonium vapor pressure in the solid form and in solution)
Odor threshold:	Not determined	Vapor density:	Not determined
pH-value:	7.9 - 8.3 (5% aq. sol. 20C)	Relative density:	Not determined
Melting/Freezing point:	190 °C (374 °F)	Solubilities:	58 g/100mL (20C)
Boiling point/Boiling range:	Not determined	Partition coefficient (n-octanol/water):	Not determined
Flash point (closed cup):	Not determined	Auto/Self-ignition temperature:	Not determined

Safety Data Sheet

according to 29CFR1910/1200 and GHS Rev. 3

Effective date : 10.24.2014

Page 5 of 7

Ammonium Phosphate Dibasic

Evaporation rate:	Gradually loses about 8% ammonia on exposure to air.	Decomposition temperature:	Decomposes into ammonia and monoammonium phosphate at about 70 deg C
Flammability (solid,gaseous):	Not combutable	Viscosity:	a. Kinematic:Not Determined b. Dynamic: Not determined
Density: Not determined Specific Gravity: :1.619			

SECTION 10 : Stability and reactivity

Reactivity:Nonreactive under normal conditions.

Chemical stability:Unstable at room temperature and exhibits an ammonium vapor pressure in the solid form and in solution. Air sensitive. Stable under normal storage in well-sealed containers at room temperature.Gradually loses about 8% ammonia on exposure to air

Possible hazardous reactions:None under normal processing

Conditions to avoid:Incompatible Materials.

Incompatible materials:Strong acids.Oxidizing agents.Sodium hypochlorite

Hazardous decomposition products:Nitrogen oxides (NOx). Oxides of phosphorus. Ammonia

SECTION 11 : Toxicological information

Acute Toxicity:		
Oral:	7783-28-0	LD50 Rat: 5750 mg/kg
Dermal:	7783-28-0	LD50 Rabbit: >7940 mg/kg
Chronic Toxicity: No additional information.		
Corrosion Irritation:		
Ocular:	7722-76-1 (Ammonium Phosphate Monobasic)	Rabbit: 0.1 molar solution continuously dripped on eye caused edema of epithelium of the cornea within 3-3.5 hr
Dermal:	7722-76-1 (Ammonium Phosphate Monobasic)	Rabbit: Mild Irritation Category 3
Sensitization: No additional information.		
Single Target Organ (STOT): No additional information.		
Numerical Measures: No additional information.		
Carcinogenicity: Not listed as a carcinogen (ACGIH, IARC, NTP): 7722-76-1 (Ammonium Phosphate Monobasic)		
Mutagenicity: mouse - lymphocyte Result: negative		
Reproductive Toxicity: No additional information.		

SECTION 12 : Ecological information

Ecotoxicity

Safety Data Sheet

according to 29CFR1910/1200 and GHS Rev. 3

Effective date : 10.24.2014

Page 6 of 7

Ammonium Phosphate Dibasic

Fish (acute 7783-28-0): : LC50; Species: Oncorhynchus mykiss (Rainbow trout); 160 mg/L for 96 hr

Crustacea (acute 7783-28-0): : LC50; Species: Grammarus pseudolimnaeus (Northern spring amphipod) (mature); 40 mg/L for 96 hr

Persistence and degradability: Not Determined

Bioaccumulative potential: Not Determined

Mobility in soil:

Other adverse effects: None identified.

SECTION 13 : Disposal considerations

Waste disposal recommendations:

Contact a licensed professional waste disposal service to dispose of this material. Dispose of empty containers as unused product. Product or containers must not be disposed with household garbage. It is the responsibility of the waste generator to properly characterize all waste materials according to applicable regulatory entities (US 40CFR262.11). Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. Chemical waste generators must also consult local, regional, and national hazardous waste regulations. Ensure complete and accurate classification.

SECTION 14 : Transport information

UN-Number

Not Regulated.

UN proper shipping name

Not Regulated.

Transport hazard class(es)

Packing group: Not Regulated

Environmental hazard:

Transport in bulk:

Special precautions for user:

SECTION 16 : Other information

This product has been classified in accordance with hazard criteria of the Controlled Products Regulations and the SDS contains all the information required by the Controlled Products Regulations. Note: The responsibility to provide a safe workplace remains with the user. The user should consider the health hazards and safety information contained herein as a guide and should take those precautions required in an individual operation to instruct employees and develop work practice procedures for a safe work environment. The information contained herein is, to the best of our knowledge and belief, accurate. However, since the conditions of handling and use are beyond our control, we make no guarantee of results, and assume no liability for damages incurred by the use of this material. It is the responsibility of the user to comply with all applicable laws and regulations applicable to this material.
