according to 29CFR1910/1200 and GHS Rev. 3

Effective date : 01.04.2015

Page 1 of 8

## Potassium Chlorate, Lab Grade

### SECTION 1 : Identification of the substance/mixture and of the supplier

**Product name :** Potassium Chlorate, Lab Grade

**Manufacturer/Supplier Trade name:**

**Manufacturer/Supplier Article number:** S25482A

**Recommended uses of the product and uses restrictions on use:**

**Manufacturer Details:**

AquaPhoenix Scientific  
9 Barnhart Drive, Hanover, PA 17331

**Supplier Details:**

Fisher Science Education  
15 Jet View Drive, Rochester, NY 14624

**Emergency telephone number:**

Fisher Science Education Emergency Telephone No.: 800-535-5053

### SECTION 2 : Hazards identification

**Classification of the substance or mixture:**

**Oxidizing**

Oxidizing solids, category 1

**Irritant**

Acute toxicity (oral, dermal, inhalation), category 4

**Environmentally Damaging**

Chronic hazards to the aquatic environment, category 2

Ox. Sol. 1; H271

Oral AcTox4; H302

Inhal AcTox4; H332

AqChr 2; H411

Hazards Not Otherwise Classified - Combustible Dust

**Signal word :**Danger

**Hazard statements:**

May cause fire or explosion; strong oxidizer

Harmful if swallowed

Harmful if inhaled

Toxic to aquatic life with long lasting effects

**Precautionary statements:**

If medical advice is needed, have product container or label at hand

Keep out of reach of children

Read label before use

Keep away from heat/sparks/open flames/hot surfaces. No smoking

# Safety Data Sheet

according to 29CFR1910/1200 and GHS Rev. 3

Effective date : 01.04.2015

Page 2 of 8

## Potassium Chlorate, Lab Grade

Take any precaution to avoid mixing with combustibles  
Do not eat, drink or smoke when using this product  
Keep/Store away from clothing/.../combustible materials  
Use only outdoors or in a well-ventilated area  
Wear protective gloves/protective clothing/eye protection/face protection  
Avoid breathing dust/fume/gas/mist/vapours/spray  
Wash ... thoroughly after handling  
Do not eat, drink or smoke when using this product  
Avoid release to the environment  
IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing  
Call a POISON CENTER or doctor/physician if you feel unwell  
IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell  
Rinse mouth  
In case of fire: Use ... for extinction  
Collect spillage  
Dispose of contents/container to ...

### Combustible Dust Hazard: :

May form combustible dust concentrations in air (during processing).

### Other Non-GHS Classification:

#### WHMIS

#### NFPA/HMIS

NFPA SCALE (0-4)

Health	2
Flammability	0
Physical Hazard	3
Personal Protection	X

HMIS RATINGS (0-4)

## SECTION 3 : Composition/information on ingredients

### Ingredients:

CAS 3811-04-9

Potassium Chlorate

>95 %

Percentages are by weight

## SECTION 4 : First aid measures

### Description of first aid measures

**After inhalation:** Move exposed individual to fresh air. Loosen clothing as necessary and position individual in

## Safety Data Sheet

according to 29CFR1910/1200 and GHS Rev. 3

Effective date : 01.04.2015

Page 3 of 8

### Potassium Chlorate, Lab Grade

a comfortable position. Seek medical advice if discomfort or irritation persists. If breathing difficult, give oxygen.

**After skin contact:** Wash affected area with soap and water. Rinse/flush exposed skin gently using water for 15-20 minutes. Seek medical advice if discomfort or irritation persists.

**After eye contact:** Protect unexposed eye. Rinse/flush exposed eye(s) gently using water for 15-20 minutes. Remove contact lens(es) if able to do so during rinsing. Seek medical attention if irritation persists or if concerned.

**After swallowing:** Rinse mouth thoroughly. Do not induce vomiting. Have exposed individual drink sips of water. Seek medical attention if irritation, discomfort or vomiting persists.

#### Most important symptoms and effects, both acute and delayed:

Irritation, Nausea, Headache, Shortness of breath.;

#### Indication of any immediate medical attention and special treatment needed:

If seeking medical attention, provide SDS document to physician.

### SECTION 5 : Firefighting measures

#### Extinguishing media

**Suitable extinguishing agents:** If in laboratory setting, follow laboratory fire suppression procedures. Use appropriate fire suppression agents for adjacent combustible materials or sources of ignition. Dry sand, dry chemical or alcohol-resistant foam.

**For safety reasons unsuitable extinguishing agents:**

#### Special hazards arising from the substance or mixture:

Combustion products may include carbon oxides or other toxic vapors. Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. Explosive when mixed with combustible material.

#### Advice for firefighters:

**Protective equipment:** Use NIOSH-approved respiratory protection/breathing apparatus.

**Additional information (precautions):** Move product containers away from fire or keep cool with water spray as a protective measure, where feasible. Use spark-proof tools and explosion-proof equipment.

### SECTION 6 : Accidental release measures

#### Personal precautions, protective equipment and emergency procedures:

Wear protective equipment. Transfer to a disposal or recovery container. Use spark-proof tools and explosion-proof equipment. Use respiratory protective device against the effects of fumes/dust/aerosol. Keep unprotected persons away. Ensure adequate ventilation. Keep away from ignition sources. Protect from heat. Stop the spill, if possible. Contain spilled material by diking or using inert absorbent.

#### Environmental precautions:

Prevent from reaching drains, sewer or waterway. Collect contaminated soil for characterization per Section 13

#### Methods and material for containment and cleaning up:

If in a laboratory setting, follow Chemical Hygiene Plan procedures. Place into properly labeled containers for recovery or disposal. If necessary, use trained response staff/contractor. Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air). Collect solids in powder form using vacuum with (HEPA filter)

#### Reference to other sections:

### SECTION 7 : Handling and storage

#### Precautions for safe handling:

## Safety Data Sheet

according to 29CFR1910/1200 and GHS Rev. 3

Effective date : 01.04.2015

Page 4 of 8

### Potassium Chlorate, Lab Grade

Minimize dust generation and accumulation. Wash hands after handling. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air). Routine housekeeping should be instituted to ensure that dusts do not accumulate on surfaces. Dry powders can build static electricity charges when subjected to the friction of transfer and mixing operations. Follow good hygiene procedures when handling chemical materials. Do not eat, drink, smoke, or use personal products when handling chemical substances. If in a laboratory setting, follow Chemical Hygiene Plan. Use only in well ventilated areas. Avoid generation of dust or fine particulate. Avoid contact with eyes, skin, and clothing.

#### Conditions for safe storage, including any incompatibilities:

Provide ventilation for containers. Avoid storage near extreme heat, ignition sources or open flame. Store away from foodstuffs. Store in cool, dry conditions in well sealed containers. Store with like hazards

### SECTION 8 : Exposure controls/personal protection

#### Control Parameters:

, , OSHA PEL TWA (Total Dust) 15 mg/m<sup>3</sup> (50 mppcf\*)  
, , ACGIH TLV TWA (inhalable particles) 10 mg/m<sup>3</sup>

#### Appropriate Engineering controls:

Emergency eye wash fountains and safety showers should be available in the immediate vicinity of use/handling. Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapor or dusts (total/respirable) below the applicable workplace exposure limits (Occupational Exposure Limits-OELs) indicated above. Use under a fume hood. It is recommended that all dust control equipment such as local exhaust ventilation and material transport systems involved in handling of this product contain explosion relief vents or an explosion suppression system or an oxygen deficient environment. Ensure that dust-handling systems (such as exhaust ducts, dust collectors, vessels, and processing equipment) are designed in a manner to prevent the escape of dust into the work area (i.e., there is no leakage from the equipment).

#### Respiratory protection:

Not required under normal conditions of use. Use suitable respiratory protective device when high concentrations are present. Use suitable respiratory protective device when aerosol or mist is formed. For spills, respiratory protection may be advisable.

#### Protection of skin:

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation being used/handled. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.

#### Eye protection:

Safety glasses with side shields or goggles.

#### General hygienic measures:

The usual precautionary measures are to be adhered to when handling chemicals. Keep away from food, beverages and feed sources. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Do not inhale gases/fumes/dust/mist/vapor/aerosols. Avoid contact with the eyes and skin.

### SECTION 9 : Physical and chemical properties

<b>Appearance (physical state,color):</b>	White solid	<b>Explosion limit lower: Explosion limit upper:</b>	Not Determined Not Determined

### SECTION 10 : Stability and reactivity

**Reactivity:**Nonreactive under normal conditions.

**Chemical stability:**No decomposition if used and stored according to specifications.

**Possible hazardous reactions:**None under normal processing.Oxidizer: Contact with combustible/organic material may cause fire.

**Conditions to avoid:**Store away from oxidizing agents, strong acids or bases.Excess heat, incompatible products, combustible materials.Incompatible Materials.

**Incompatible materials:**Strong acids.Strong bases.Alcohols, Acids, Strong reducing agents, Hydrocarbons, Organic materials, powdered metals.

**Hazardous decomposition products:**Carbon oxides (CO, CO<sub>2</sub>).Hydrogen chloride gas, Chlorine.Oxides of potassium.

### SECTION 11 : Toxicological information

<b>Acute Toxicity:</b>		
<b>Dermal:</b>	>2000 mg/kg	Dermal LD50 Rabbit
<b>Oral:</b>	1870 mg/kg	Oral LD50 Rat
<b>Chronic Toxicity:</b> No additional information.

**Reproductive Toxicity:**

No additional information.

#### SECTION 12 : Ecological information

##### Ecotoxicity

**Freshwater Fish:** 96 Hr LC50 Pimephales promelas: 13500 mg/L

**Freshwater Fish:** 96 Hr LC50 Oncorhynchus mykiss: 1750 mg/L

**Persistence and degradability:** Readily degradable in the environment.

**Bioaccumulative potential:**

**Mobility in soil:**

**Other adverse effects:**

#### SECTION 13 : Disposal considerations

##### Waste disposal recommendations:

Product/containers must not be disposed together with household garbage. Do not allow product to reach sewage system or open water. It is the responsibility of the waste generator to properly characterize all waste materials according to applicable regulatory entities (US 40CFR262.11). Consult federal state/ provincial and local regulations regarding the proper disposal of waste material that may incorporate some amount of this product.

#### SECTION 14 : Transport information

##### UN-Number

1485

##### UN proper shipping name

POTASSIUM CHLORATE

##### Transport hazard class(es)

##### Class:

9 Miscellaneous dangerous substances and articles

**Packing group:** II

**Environmental hazard:**

**Transport in bulk:**

**Special precautions for user:**

#### SECTION 15 : Regulatory information

##### United States (USA)

##### SARA Section 311/312 (Specific toxic chemical listings):

Reactive, Acute, Chronic

### SECTION 16 : Other information

This product has been classified in accordance with hazard criteria of the Controlled Products Regulations and the SDS contains all the information required by the Controlled Products Regulations. Note: The responsibility to provide a safe workplace remains with the user. The user should consider the health hazards and safety information contained herein as a guide and should take those precautions required in an individual operation to instruct employees and develop work practice procedures for a safe work environment. The information contained herein is, to the best of our knowledge and belief, accurate. However, since the conditions of handling and use are beyond our control, we make no guarantee of results, and assume no liability for damages incurred by the use of this material. It is the responsibility of the user to comply with all applicable laws and regulations applicable to this material.
