

The Science You Need from Seed to Sale

Your Single Source for Cannabis
Harvesting, Testing, and Safety Products

Comprehensive Technologies,
Services, and Workflow Solutions

 **fisher** scientific
part of Thermo Fisher Scientific

Products for Every Step of Your Workflow

Choose the Fisher Scientific channel as your total cannabis solution. From personal protective equipment to hazardous material storage, we offer over 700,000 lab and safety products in the Canadian market, including those listed on the following pages.

Growing

Extraction

Research and Development

Production

Quality Control

Distribution

Sale

Measurement Equipment and Accessories

- Class II legal-for-trade balances (portable, bench, and floor)
- Moisture analyzers
- Refractometers
- Trays and totes
- Printers and label makers

Extraction Supplies

- Chemicals
- Rotary evaporators
- Condensers
- Lab glassware and vials
- Filtration and clarifiers
- Cold storage

Analytical Sample Prep

- pH meters
- Homogenizers and shakers
- Centrifuges
- Hotplates and stirrers
- Analytical LFT balances
- Calibration standards
- Buffers

HPLC and CPC

- Chemicals
- Consumables
- Certified standards
- Spiking solution
- Columns and guard columns

LC, MS, GC, and GC-MS

- Consumables vials
- Solid-phase extraction
- Columns
- Reference standards

Microbial Analysis

- Testing kits
- Filters and membranes
- Swabs, plates, and media
- Incubators and manifolds
- Colony counting
- Air monitoring

Trace Heavy Metals, ICP-MS, and AA Spec

- Sample preparation
- Microwave digestion
- Instrumentation
- Reference standards

Point of Sales

- Printers and label makers
- Portable balances
- Safety solutions

Safety Products for All Your Work

Facility Maintenance

- Material handling
- Hazardous storage and waste disposal
- Spill control and containment
- First aid — eyewash stations and showers
- Janitorial supplies

Laboratory Safety

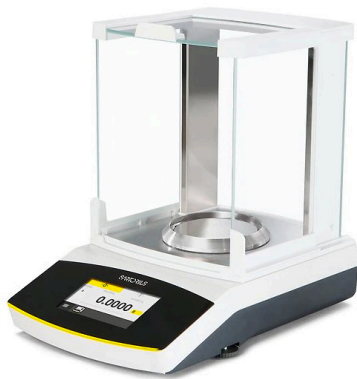

- PPE — gloves, masks, and eyewear
- Contamination control
- Sanitization
- Environmental health and safety products
- Air monitoring

Production

- Fall protection
- Safety apparel
- Controlled environment solutions

Make Quality Your Benchmark and Consumer Safety Your Priority

Sartorius provides reliable sample preparation and data integrity solutions for Cannabis analysis. Sartorius balances and analyzers offer a quick determination of moisture and weight to help you safely prepare samples for analytical or microbiological analysis.

Sartorius Secura™ NTEP Analytical and Precision Balances

- NTEP-compliant weighing, legal for trade
- Built-in protection for reliability and compliance
- Automatic internal adjustment
- Real-time prompts for leveling

Analytical Cat. Nos. 14-557-478, 14-557-479

Precision Cat. Nos. 14-557-480, 14-557-481, 14-557-482, 14-557-483, 14-557-484, 14-557-485, 14-557-486

Sartorius MA160 Moisture Analyzer

- Uses thermogravimetric method
- Suitable for analyzing moisture of varying samples under different conditions
- Performs fast, precise analysis
- Offers fully automatic endpoint determination

Cat. No. 14-599-023

Trusted and Reliable Analytical Chemicals

Fisher Chemical™ products are available in a variety of sizes and grades and include Certificates of Analysis.

Description	Size	Cat. No.
2-Propanol, Certified ACS Grade	200 L	A416-200
2-Propanol, HPLC Grade	4 L	A451-4
Acetone, Certified ACS Grade	200 L	A18-200
Acetone, HPLC Grade	4 L	A949-4
Acetonitrile, Optima™ LC-MS Grade	1 L	A955-1
Dimethylformamide, GC Headspace Grade	1 L	D1331
Dimethyl Sulfoxide, GC Headspace Grade	1 L	D1391
Heptane, HPLC Grade	4 L	H350-4
Hexanes, Certified ACS Grade	200 L	H292-200
Methanol, Certified ACS Grade	200 L	A412-200
Water, Optima LC-MS Grade	4 L	W64

Respiratory Protection that Works as Hard as You Do

From the most basic to the most specialized needs, 3M offers health and safety protection to help you and your workers perform at your best.

3M™ Comfort Disposable N95 Filtering Facepiece Unvalved Respirators

- Two-strap design with dual-point attachment for secure fit
- Adjustable nose clip for better seal
- Lightweight construction for enhanced comfort
- Meets NIOSH 42 CFR 84 N95 requirements

Cat. No. 18-999-473, 19-033-524

3M 6000 Series Half Face Mask Respirator

- Combines features of reusable and disposable respirators for effective protection
- Bayonet connection system allows connection to a broad range of twin filters
- Economical, lightweight, and low maintenance
- NIOSH approved under 42 CFR 84

Cat. Nos. 17-986-9A, 17-986-9B, 17-986-9C, 17-987-3A, 17-987-3B

Uniquely Designed for Maximum Comfort

Bullard™ EVA™ (Evolutionary Air) represents the latest in cutting-edge powered air-purifying respirator (PAPR) technology. Designed using feedback from customers and application experts, the NIOSH-approved respirators provide constant airflow in a lightweight, ergonomic form for added comfort.

Bullard™ EVA PAPR System with Double Bib Tychem QC Hoods

- Easy-to-read fuel gauge displays remaining battery capacity at a glance
- Bullard Active Flow Technology automatically responds to a worker's need for more or less air flow
- Powered by a long-lasting 10,000-hour brushless motor
- Single filter design for easy use

Cat. Nos. 17-986-270, 17-986-264, 17-989-615, 17-989-610

Bullard Filter Cartridge for EVA™ Powered Air-Purifying Respirator

- Choose between OVAGHE or HEPA filter cartridges
- Tested in accordance with NIOSH 42 CFR Part 84, EN 12941, and CE 1094 (EVA PAPR with Loose Fitting Headtops only) requirements

Cat. Nos. 19-824-560 (OVAGHE), 17-986-282 (HEPA)

Value-Packed Products that Make Your Lab Life Easier

The Fisherbrand collection includes a variety of products designed to support your work — every day, when it matters most.

Fisherbrand™ Polypropylene Graduated Cylinders

- Calibrated "To Contain/To Deliver" at 20°C
- Includes large, easy-to-read molded graduations
- Features large round base ribbed for reinforcement and stability
- Available in sizes from 0.2 mL to 20 mL

Cat. Nos. 03-007-40, 03-007-38, 03-007-39, 03-007-41,
03-007-42, 03-007-43, 03-007-44, 03-007-45

Reliable Filter Papers in a Variety of Grades

Enabling breakthroughs in science and medicine for more than 250 years, Cytiva offers high-quality products to help you make a difference in our world.

Cytiva Whatman™ Qualitative Filter Paper Circles, Grade 1

- For routine applications
- Medium retention and flow rates
- Smooth surface
- Used in qualitative analytical techniques to determine and identify materials and for clarifying liquids

Cat. Nos. 09-805C, 09-805D, 09-805G, 09-805H

Cytiva Whatman Folded Qualitative Filter Papers, Grade 2V

- Exposes extra surface area to enable higher loading capacity and shorter filtration time
- Medium flow and nominal particle retention
- Fluted (pre-pleated) for easy use with conical filter funnels
- Can be used for soil analysis or general filtration

Cat. Nos. 09-832C, 09-832F, 09-832D, 09-832E, 09-832G

Cytiva Whatman Qualitative Filter Paper Circles, Grade 113

- Strengthened with chemically stable resin additive
- Creped surface promotes ultra-high loading capacity
- Fastest flow rate of the qualitative grades
- Thickest paper in the qualitative range

Cat. Nos. 09-853A, 09-853B, 09-853C,
09-853D, 09-853E
