

Fisher Scientific North America Quality and Capabilities Self-Assessment

Dear Valued Customer,

Thank you for your interest in doing business with us.

The Fisher Scientific channel is your one-stop shop for a variety of global product and service brands, offering a comprehensive selection of laboratory equipment, chemicals, instruments, biological products, and consumable supplies. With an extensive list of exclusive alliances with major manufacturers and our own Fisherbrand™ line of products, we provide easy access to the items that are most in demand—all from one source.

We developed this self-assessment in an effort to answer your questions about our business and capabilities. If you have further questions about our capabilities in North America, please contact our customer service teams.

1. Introduction

The Fisher Scientific channel helps customers working in scientific research, safety, healthcare, and education to increase productivity and efficiency. Through this global channel, we offer a complete portfolio of laboratory equipment, chemicals, supplies, and services. We provide consistent service across North America and Europe, with strategically located regional offices and distribution centers for prompt, responsive delivery.

Through fishersci.com (for U.S.) and fishersci.ca (for Canada), we provide real-time stock availability and a range of features to help you easily find and purchase exactly what you need. Plus, our printed catalogs cover the entire breadth of general laboratory work.

2.3 Parent Company Information

Thermo Fisher Scientific Inc. (NYSE: TMO) is the world leader in serving science, generating \$40 billion in annual revenue. Our Mission is to enable our customers to make the world healthier, cleaner and safer. Whether our customers are accelerating life sciences research, solving complex analytical challenges, improving patient diagnostics and therapies or increasing productivity in their laboratories, we are here to support them. Our global team of more than 100,000 colleagues delivers an unrivaled combination of innovative technologies, purchasing convenience and pharmaceutical services through our industry-leading brands, including Thermo Scientific, Applied Biosystems, Invitrogen, Fisher Scientific, Unity Lab Services, Patheon, and PPD.

2.4 Fisher Scientific Products and Services

This self-assessment form applies to the distribution of the laboratory and research products, equipment, chemicals, consumables, and reagents that are available from the Fisher Scientific portfolio. The Fisher Scientific channel does not manufacture products and acts as distributor only.

2.5 Fisher Scientific Organization Chart

Please see Appendix 1

2.6 Financial Information

	Florence, Kentucky	Fisher Scientific Company L.L.C.	National Association of Boards of Pharmacy	04/11/2027

NABP accreditation is valid for three years. Facilities listed with “Re-accreditation in Process” will remain accredited throughout the re-accreditation process.

3.4 Quality Information

Do you relabel, repackage, or kit any of the materials your company distributes?	No
Do you have an established, documented, implemented, and maintained Quality Management System?	Yes
Do you have a Quality Manual with documented procedures to support your QMS?	Yes
Do you have a system in place to ensure that only the latest version of procedures or SOPs are used?	Yes
Do you have business and management processes for the regular review of quality performance identifying areas for improvement?	Yes
Do you conduct regular internal audits for the purpose of confirming the effectiveness of your quality systems?	Yes
Do you provide employees with training and information on quality matters that impact their work?	Yes
Do you have a documented complaint handling procedure?	Yes
Do you have a formal written process for the management of product recalls?	Yes
Do you have a formal procedure for implementing corrective and preventive actions?	Yes
Does the CAPA process provide for the investigation of the root cause of quality issues and the determination of the corrective action needed to eliminate the root cause?	Yes
Are there processes to ensure that changes to laws and regulations are identified and the quality management system updated accordingly?	Yes

3.5 Environmental Information

Do you have a formal Environmental and Sustainability Policy and Objectives?	Yes
Do you have objectives around reducing waste?	Yes
Do you have objectives around energy consumption and your carbon footprint?	Yes
Do you have objectives around reducing water usage and other raw material consumption?	Yes
Do you set environmental objectives and measure performance against them?	Yes
Do you have business and management processes for the regular review of environmental and sustainability performance and identifying areas for improvement?	Yes
Do you conduct regular internal audits for the purpose of confirming the effectiveness of your environmental system?	Yes
Do you provide employees with environmental and sustainability training and information?	Yes

3.6 Business Ethics and Corporate Social Responsibility

Do you have a code of business conduct?	Yes
Do you have a written anti-bribery and corruption policy?	Yes
Do you have a written policy relating to corporate governance and business ethics?	Yes
Do you have a corporate social responsibility program?	Yes
Do you have a policy concerning equality and diversity?	Yes
Do you engage in charitable work or volunteering and/or support employees in similar activities?	Yes

3.7 Small and Specialty Supplier Program

Do you have a dedicated small and specialty supplier program (SSSP) team?	Yes
Do you have a formalized small and specialty supplier program encompassing your offerings?	Yes
Does your small and specialty supplier program team work with your customers on their specialty supplier initiatives?	Yes
Do you have a vetting process for your distributors and suppliers?	Yes
Does your small and specialty supplier team do outreach?	Yes
Do you mentor your small and specialty supplier businesses?	Yes
Does your small and specialty supplier team offer training to the SSSP members?	Yes
Does your small and specialty supplier team perform reviews of the SSSP suppliers?	Yes
Do you have clearly defined goals around spend?	Yes
Do you have a process to track and report on small and specialty spend?	Yes
Do you communicate the impact of small and specialty supplier efforts to stakeholders?	Yes
Do you report your small and specialty spend in your CSR (Corporate Social Responsibility)?	Yes

4. Supplier Management

North American supply chain organization with sub-functions leveraging common processes and procedures:

- Distribution – located strategically to provide a high-service, low-cost model
- Purchasing and Planning – North American planning and execution provide high fill-rates with reduced inventory and dead and excess exposure
- Transportation – Fisher Scientific group, set within a Thermo Fisher Scientific corporate structure, enabling maximum carrier leverage
- Supplier Quality Management – The Fisher Scientific channel is committed to upholding regulatory standards while delivering reliable, high-quality products with consistent on-time performance. Central to this commitment is a risk-based Supplier Quality Management program that focuses on identifying, qualifying, and maintaining relationships with high-performing suppliers. Suppliers are classified based on regulatory risk, with manufacturers of Private Label medical devices (e.g., Fisherbrand and Fisher Healthcare) representing the highest risk and therefore subject to enhanced controls such as Quality Agreements and periodic on-site Quality Audits. Suppliers for which Fisher Scientific acts solely as a distributor are considered lower risk and are managed through proportionate controls, including purchase order terms, the Supplier Quality Guide and, where applicable, distribution agreements.

This program has been expanded beyond regulatory risk to help ensure suppliers maintain a reliable, effective, and documented Quality Management System. The Supplier Quality Guide serves as a binding commitment for suppliers to understand and adhere to the quality requirements of conducting business with the Fisher Scientific channel, reinforcing expectations and accountability. Supplier performance and quality are monitored on an ongoing basis through periodic evaluations and Supplier Scorecards to drive continuous improvement. As a distributor-only organization that does not manufacture products, the Fisher Scientific channel remains focused on strong supplier oversight to help ensure compliance, quality, and customer satisfaction.

5. Employees and Training

5.1 Fisher Scientific Employees in North America

Country	Approximate Number of Fisher Scientific Employees
United States	2,600+
Canada	330+
Puerto Rico	25+
Costa Rica	24

Country	Approximate Number of Thermo Fisher Scientific Employees
Worldwide	100,000+

5.2 Training

Is there a process by which training needs are assessed for relevant roles or positions?	Yes
Is completed training evaluated and approved?	Yes
Are written training records maintained for employees?	Yes
Are all employees required to undertake annual business ethics training?	Yes

5.3 Social Information

Do you ensure that you comply with all applicable laws and standards concerning employee wages and benefits?	Yes
Do you ensure that you comply with all applicable laws and standards regarding employees' working hours, overtime, holidays, and time off?	Yes
Do you actively take steps to ensure that you do not employ under-age labor or forced labor as described in the International Labor Organization conventions?	Yes
Do you operate your business on the basis of equal opportunity and non-discrimination, whether by race, color, religion, sex, age, nationality, or ethnicity?	Yes

6. Logistics

The Fisher Scientific channel holds inventory in 15 strategically located distribution networks in North America and Puerto Rico. We have approximately 2,100,000 square feet of full-service warehousing that handles more than 13 million lines annually. Inventory levels at location warehouses are adjustable for specific items to ensure prompt delivery, which offers flexibility in the supply chain. We use a mix of Fisher Scientific fleets plus multi-modal/multicarrier networks to deliver to our customers. Our integrated logistics networks provide distinctive supply-chain services that are tailored to specific market needs.
